Print this three paged pdf at 8.5 x 11 (don't scale up) on sticker paper that can be purchased at Office Max/Staples or your local print shop. Purchase Scrabble tiles in bulk from Amazon.com and prime them with white (for most heroes) and black (for main Bat family). Paint the white tiles to match the colors for each hero shown here with acrylic paint. Cut out each tile and adhere them to the tiles (I did not make mine double sided, but you could if you want by printing the file again). You could also print on regular paper and apply with ModPodge, but results may vary, so proceed with caution.
